Pea, fall	Aug 15 - Sep 15		

Cool Season Crops: beets, carrots, chard, all cole crops, (broccoli, cabbage, Brussels sprouts, cauliflower, Chinese cabbage) collards, garlic, lettuce, mustard greens, onions, peas, radishes, spinach & turnips.

Many cool season crops will grow all winter here so you can usually get 2 crops in a year. Some will need protection in November, December & January if we have a night time temperature below 30 degrees.

Warm Season Crops: beans, corn cucumbers, eggplant, herbs, melons, okra, peppers, pumpkin, summer & winter squash, tomatoes & watermelon.

Dates listed for starting seeds are dates to start **indoors**, not outside.

Vegetable Planting Dates by Month

January

Start seeds indoors
