

**Gardens for Humanity**  
**"Celebrating the Art in Earth"**  
**Art and Environmental Education Program**

- Art Skills**
- Design
  - Color
  - Drawing
  - Painting
  - Ceramics
  - Mixed Media
  - Singing
  - Poetry
  - Story telling
  - Movement
  - Choreography
  - Performance

- Art Appreciation**
- Observation
  - Critical thinking
  - Describing
  - Discussing
  - Visual language
  - Elements of design
  - Diverse perspectives
  - Technique
  - Expression

- Aesthetic Intelligence**
- Express feelings
  - Imagination
  - Enjoyment of Art
  - Language development
  - Unique perceptions
  - Understand creative process
  - Understand technique
  - Understand context
  - Awareness of one's own and other cultures
  - Ability to share experiences
  - Flexibility of expression

- Environmental Science**
- Botany
  - Ecology
  - Systems-cycles
  - Water
  - Soil
  - Habitat
  - Climate
  - Life Science
  - Geography
  - Earth Science - Climate
  - Waste-Recycling

- Gardening & Horticulture Skills**
- Seeds and germination
  - Soil biology
  - Composting
  - Planting & transplanting
  - Caring for plants
  - Seasons
  - Growing cycles
  - Adaptation
  - Native plants
  - Traditions

- Nature Awareness**
- Observation
  - Critical thinking
  - Describing
  - Discussing
  - Interdependence
  - Life cycles
  - Bio-diversity
  - Human impact
  - Conservation
  - Flora & Fauna
  - Sense of kinship with nature
  - Adaptation

- Serve**
- Low income children
  - "Art poor" rural schools
  - Potentially "at risk" youth
  - English language learners
  - Food insecure

- Art & Environmental Education Develops**
- Self-confidence
  - Problem solving abilities
  - Teamwork
  - Language development
  - Sense of accomplishment
  - Multi-sensory engagement
  - Creativity/inventiveness
  - Success
  - Job readiness skills
  - Ability to share experiences
  - Improved academic performance
  - Sense of responsibility
